

Tawny Owls May Half Term Homework

- Practice counting in 2s and 10s. You could also start to learn counting in 5s. I wonder if there are any patterns that you can spot?

Parents, at this stage we do not refer to this as times tables. The children are introduced to the multiplication symbol in Year 2. But in Year 1 we start to learn counting in lots of 2, 5 and 10.

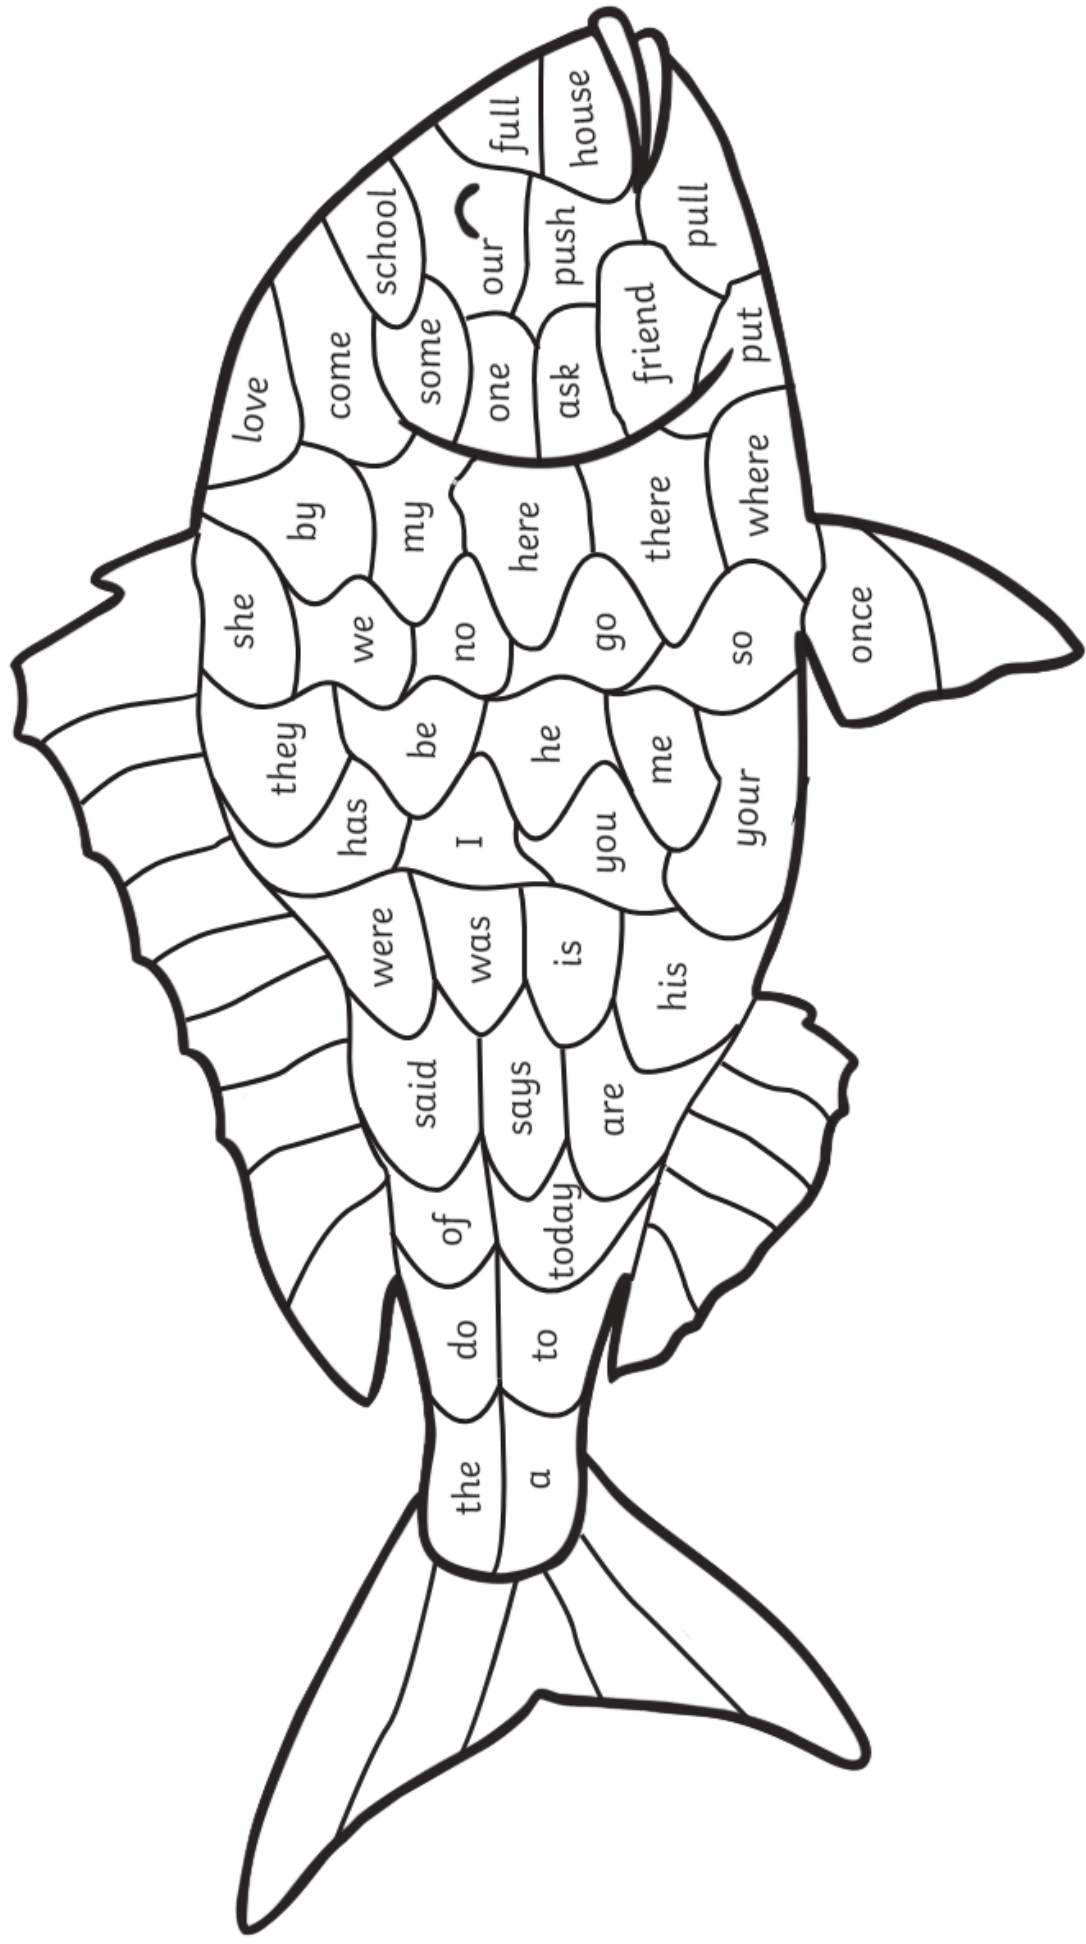

- Learn to read the words on the fish. You may already know lots of them! When you can read them all, then start to learn how to spell them. Keep practicing writing them until you can spell them off by heart 😊

Parents, these are all words that children are expected to read fluently and spell correctly.

I hope you all have a wonderful break and look forward to seeing you all on Tuesday 4th June!
